As a truck driver XM's ability to provide me with information such as traffic and weather at the push of a button is a MAJOR convenience not to mention safety enhancement that I have quickly come to enjoy. My suggestion to all Washington types is to get out in the real world once in a while and see how difficult it can be to get these services when you want or need them 24 hours a day, seven days a week. You want in on a little secret. XM is the only service to provide this!! My suggestion to you..... Leave XM alone!!
